Stan Hywet Hall & Gardens, located in Akron, Ohio, is the former home of F.A. Seiberling, the founder of The Goodyear Tire & Rubber Company, and his family. Completed in 1915, it is one of the most important remaining examples of an American Country Estate built by the wealth created during the Industrial Age at the turn of the twentieth century, when the emergence of modern America made Akron the "Rubber Capital of the World." Open from April through December, Stan Hywet includes a 65-room Manor House and more than 70 acres of artfully landscaped grounds. It is Akron's only National Historic Landmark and is accredited by the American Association of Museums.

Stan Hywet Hall & Gardens is a Partner Place of the National Trust for Historic Preservation.
