

Summer at Stan Hywet Hall & Gardens

By Emilee Beck
Marketing Department Intern

This Summer I was the marketing intern at Stan Hywet Hall & Gardens. During the time I spent here, one of the things I was able to do was take many pictures of the grounds. Above are some of my best, including photos of flowers and plants around this beautiful historic estate.

There's a great variety of flora and fauna in Stan Hywet's gardens, that on any given day, was something beautiful to enjoy and photograph for the marketing department's photo catalogue. The gardens include more than just plants: the bees and butterflies are very, *very* active (it's a healthy environment for them) so I was able to capture photos of them buzzing and fluttering. On one day I was able to capture a photo of a chipmunk. Going out and taking these pictures has made me realize that photography is something that I really enjoy and want to learn more about.

Thank You Stan Hywet Hall & Gardens for giving me a summer that I will never forget!
